

color psychology for Restaurant interiors

JUST INTERIO PVT. LTD.

BLUE AND PURPLE COLORS

blue and purple tones are associated with toxins and have been shown to decrease appetite.

RED COLORS

Earth tones or rich reds are best for fine dining restaurants, especially when combined with deep wood tones.

NEUTRAL COLOR

Black, white, beige, gray and brown are all excellent colors to incorporate into a restaurant's decor. They offer a perfect background that lets the stand out.

GREEN COLOR

Green is a relaxing color and can improve vision. People associate green with nature and that's why they feel more comfortable in rooms painted in green.

TEXTURE AND ELEMENTS

Along with colors, adding texture to your restaurant's decor will help create a welcoming ambiance for customers.
